

```

        InitializeComponent();
    }

    private void button1_Click(object sender, EventArgs e)
    {
        string age = dateTimePicker1.Text;
        MessageBox.Show("dob " + age);
        string yr = age.Substring(5);
        MessageBox.Show("dob year " +yr);
        int cyr = DateTime.Now.Year;
        MessageBox.Show("current year "+cyr);
        int diff = cyr-Convert.ToInt32(yr);
        MessageBox.Show("your age is "+diff);
    }
}
}

```
